

## **WYSIWYG Installation Instructions:**

---

### **DOWNLOAD WYSIWYG FOR YOUR PC:**

Download the WYSIWYG software from the download link:

<http://www.cast-soft.com/Demo/index.php>

### **INSTALLING WYSIWYG on a PC:**

1. Once downloaded, double click the “wyg28dv.exe”. The installation exe will then launch.
2. A warning will appear asking you to close all active programs. Press “ok”
3. Press “next”
4. Read and “agree” to the terms of the license agreement.
5. Review the list of requirements and press “next”.
6. Press “next” again.
7. Here you can change the installation directory, or keep it default, press “next”.
8. Select the type of setup you want to install, default complete, press “next.”
9. Choose a program folder, press “next”
10. Review all settings, press “next”.

WYSIWYG will now install.

After completion your computer may require a restart.

### **Registering your demo software:**

*You may need to register your WYSIWYG demo in order to use the software after a trial of 14 days has expired. In this situation please follow the instructions as prompted on screen.*
